MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: United States Army Area III Support Activity, Policy Memorandum #7, Smoking on the Airfield

1. This policy supersedes United States Army Area III Support Activity Policy Memo #7, Smoking on the Airfield, 30 May 2000

2. Under no circumstances will any person smoke within the confines of the perimeter fence of the airfield except in distinctly marked and approved designated smoking areas. Smoking areas will be defined as areas not larger than 20 square feet and in compliance with regulatory requirements.

3. Requests for approval of designated smoking areas must be submitted in writing to the installation fire department by the utilizing unit or organization. All requests must include specifics as to the location of the proposed smoking area.

4. All requests shall include an approval/disapproval line with the fire department chief's signature block for his or her designated representative's signature.

5. All approved smoking areas will be marked with a white sign. "Smoking Area" will be painted on the sign with red lettering (3-inch block). Smokers will have an appropriate means to dispose of cigarette butts within the approved smoking area.

6. Current policies regarding smoking within the confines of buildings will remain unchanged. Commanders will ensure compliance with this policy.

7. Questions pertaining to this policy will be addressed to Airfield Operations at 753-7555, Post Safety at 753-6002, or the Installation Fire Department at 753-6173.
